Summary

React.js Developer with 1 year of remote professional experience building responsive and scalable web applications. Strong knowledge of JavaScript (ES6+), React components, hooks, REST API integration, and Python frameworks. Experienced in collaborating with remote teams and delivering high-quality frontend solutions. Actively seeking a Software Developer role in Dubai.

Experience

- React.js Developer (Remote)** – FederalTec Technology Dubai, UAE
Nov, 2024 – Dec, 2025
- Developed reusable and modular React.js components using modern patterns such as **Hooks and Context API**.
 - Developed end-to-end React.js features for modern web applications with dynamic user interfaces.
 - Integrated **REST APIs** to manage data flow and user interactions.
 - Implemented responsive UI designs ensuring compatibility across multiple devices.
 - Collaborated remotely using Git, debugged UI issues, and followed best practices for clean and scalable code.

Education

- Master of Computer Applications (MCA)** 2022 – 2024
APJ Abdul Kalam Technological University, Kerala, India
- B.Sc Mathematics** 2017 – 2020
University of Calicut, Kerala, India

Skills

Technical Skills

- Languages: **Python, C, C#, JavaScript**
- Front End: **React.js, Streamlit, HTML5, CSS3, TailwindCSS**
- Databases: **MySQL, Firebase, MongoDB**
- Frameworks: **Flask, Django**
- Tools & Platforms: **Git, GitHub, VS Code, npm, Vercel**
- Full-Stack Knowledge: **MERN Stack**

Professional Skills

- Communication
- Team Collaboration
- Problem Solving
- Time Management
- Adaptability
- Attention to Detail

Additional Information

Personal Info

- Nationality: Indian
- Visa Status: UAE Visiting Visa
- Availability: Immediate

Language

- English
- Hindi
- Malayalam

Passport Details

- Passport No: Y8309176
- Date of Expiry: 03/09/2033

Projects

Online Shopping Site – MERN Stack

2025

- Developed a clothing e-commerce website with secure login & checkout.
- Built product browsing with search, filter & cart management.
- Developed REST APIs with MongoDB integration for storing and retrieving product details.

Hospital Appointment Management System – Django, SQLite

2025

- Developed a Django app for doctor listings and patient bookings.
- Implemented secure form submission and data handling with Django Models and Forms.
- Managed doctors and department information with relational database integration.

Resume Analyzer – Python, Streamlit, NLP

2025

- Built a Streamlit web app that evaluates resume–job fit using NLP.
- Used Sentence Transformers + TF-IDF to calculate a weighted match score.
- Implemented PDF extraction, text cleaning, and visual match feedback for users.

AI Summarizer – React, Flask, GPT API

2025

- Developed an AI Summarizer (React + Flask) supporting text, PDF & YouTube.
- Used OpenAI GPT to automatically generate concise text summaries.

Personal Car Buying Assistant – Python, Django, ML (sklearn)

2024

- Built a web-based ML app using Python and Django to predict used car prices.
- Preprocessed data with Pandas and NumPy, and trained a Linear Regression model using scikit-learn.
- Achieved accurate predictions on a dataset of 11,000+ used cars from Kaggle.

Personalized Exercise Recommendation System – Django, SQLite

2023

- Developed a Django web app recommending exercises based on user attributes.
- Implemented backend logic and database (SQLite) for dynamic recommendations.
