## Summary

Frontend Developer with experience in designing, developing, and optimizing responsive web applications using **React.js, Next.js, JavaScript, and Tailwind CSS**. Proficient in building reusable UI components, integrating CMS-driven content and REST APIs, troubleshooting frontend issues, and optimizing code quality and maintainability. Experienced in backend development using **Node.js, Express.js, Flask, and Django**, with knowledge of **MongoDB** and **MySQL**. Skilled in translating design specifications into responsive, user-focused interfaces and developing scalable web solutions. Additional experience in WordPress, Elementor, content writing, and digital marketing.

## Core Skills

- Skilled in website development and website management, supporting content updates and maintenance tasks.
- Proficient in HTML5, CSS3, and JavaScript for building responsive and user-friendly web interfaces.
- Strong knowledge of WordPress and Elementor for website management and customization.
- Able to convert Figma designs into responsive and clean UI components.
- Experienced in using Git and version control workflows for project collaboration and code management.
- Proficient in SEO content writing, blog development, and social media management.
- Strong team collaboration and communication skills, with the ability to work effectively in team environments.

**Technical Skills**

- Frontend: **HTML5,CSS3,JavaScript(ES6+),ReactJS,TailwindCSS** • Backend: **Node.js, Express.js, Next.js, Flask, Django**
- Databases: **MongoDB, MySQL** • Languages: **Python, JavaScript, SQL, Java, C, C#**
- Tools & Technologies: **Git, GitHub, REST APIs, VS Code, Postman, Vercel** • CMS & Web Development:**WordPress, Elementor**

## Experience

**Web Developer** – Ergospace Office Furniture, Dubai,UAE
Apr, 2026 - Present

- Developed reusable, responsive UI components using React, Next.js, and Tailwind CSS for an office furniture e-commerce platform.
- Integrated CMS-driven content with reusable page-builder components using Puck, enabling dynamic content rendering and editor-controlled customization across multiple pages.
- Translated design mockups into production-ready interfaces, implementing responsive layouts, interactive product cards, image carousels, and dynamic banner sections.
- Diagnosed and resolved frontend rendering issues across the page editor and live website by fixing CSS utility dependencies, image container layouts, and CMS data structure mismatches.
- Optimized frontend code by refining Tailwind CSS utilities, reducing redundant styles, and improving code efficiency and maintainability across reusable UI components.
- Wrote SEO-focused blog articles on office furniture and workspace solutions, incorporating relevant keywords to improve website visibility, search engine rankings, and organic traffic.
- Supported digital marketing initiatives by creating engaging social media content, and aligning promotional content with marketing campaigns to improve online visibility and audience engagement.

**Front-End Developer (ReactJS) - Remote** – FederalTec Technology, Dubai,UAE
Nov, 2024 - Dec,2025

- Developed and maintained responsive web applications using ReactJS and modern JavaScript (ES6+), building reusable UI components for scalability and performance.
- Integrated REST APIs and third-party services to enable seamless frontend-backend communication and data flow.

- Optimized applications for performance, speed, responsiveness, and cross-browser compatibility to enhance user experience.
- Collaborated with designers and developers in Agile environments, converting UI/UX designs into production-ready code.
- Debugged and resolved application issues while using Git for version control and maintaining efficient development workflows.

## Education

**Master of Computer Applications (MCA)** - APJ Abdul Kalam Technological University, Kerala, India 2022 – 2024

**B.Sc Mathematics** - University of Calicut, Kerala, India 2017 – 2020

## Additional Information

- Nationality: Indian
- Visa Status: **Spouse Visa** (husband - sponsored)
- Languages known: English, Malayalam, Hindi

## Key Projects

**Resume Analyzer Application**

Technologies: Python, Streamlit, NLP

- Developed an AI-powered resume analysis application to compare resumes with job descriptions and generate match scores.
- Implemented NLP preprocessing, semantic similarity analysis using Sentence Transformers, keyword matching using TF-IDF.
- Built an interactive Streamlit dashboard to display resume insights, similarity scores, visual representations for better analysis.

**Personal Portfolio Website**

Technologies: ReactJS, Tailwind CSS - https://majitha-portfolio.vercel.app

- Designed and developed a responsive portfolio website showcasing projects and technical skills.
- Focused on clean UI, responsive layouts, and performance optimization.

## Certifications

- **Introduction to Internet of Things (IoT)** – IIT Kanpur, NPTEL
  Certification in IoT concepts, architecture, connected systems, and applications.
- **Privacy and Security in Online Social Media** – IIT Kanpur, NPTEL
  Certification covering social media privacy, security threats, data protection, and online safety practices.
- **One Million Prompters Program** – Dubai Government
  AI Prompt Engineering & Generative AI Fundamentals
